SKILLS

Languages: C++, Python, C

Tools/Platforms: MongoDB, Tableau, ETL, MS SQL Server, MS Office.

Soft Skills: Problem-Solving, Project Management, Adaptability

PROJECTS

Railway Management System | PHP, HTML, CSS, JS, MY SQL

May' 24

- The Railway Management System is a web-based platform designed to automate railway booking and train scheduling. It allows users to easily register, search trains, check seat availability, and book tickets. Admins can manage trains, routes, and passenger records.
- This project provides a complete solution for railway operations, including ticket booking, passenger management, and train monitoring. Built using PHP and MySQL, it ensures fast data processing and a user-friendly interface. It helps reduce manual errors and improves the overall booking experience.

Forum Website | HTML, CSS, JS, MS SQL Server

Apr' 25

- Developed a web-based forum platform where users can create posts, comment, and engage in discussions. Implemented secure user authentication with login/registration functionality.
- Built CRUD operations for posts and comments using PHP & MySQL. Designed a clean, responsive UI using HTML & CSS for smooth user experience. Structured database tables for users, posts, comments, and categories.
- A dynamic forum website that allows users to share posts, reply to discussions, and interact with the community. The system includes secure authentication, responsive design, and a structured database for managing posts and comments. Built using PHP, MySQL, HTML, and CSS for efficient backend processing and clean UI.

Music Player | HTML, CSS, JS

Jun' 25

- Developed a fully responsive music player using HTML, CSS, and JavaScript. Implemented audio controls such as play, pause, next, previous, and volume adjustment.
- Designed an attractive UI with animations and smooth transitions. Integrated song details display including title, artist name, and album cover.
- A modern web-based music player built using HTML, CSS, and JavaScript with features like playlist management, audio controls, progress tracking, and responsive UI. It provides smooth playback and dynamic updates, offering a clean and user-friendly listening experience.
